

Biography

My name's Fioravante Capaccio and I was born In Salerno.

Since 1984 I've been started working with radio as speaker and technical supervisors for console, microphones and audio systems.

I attended several acting courses as well as dubbing courses, in order to improve my skills: I'm passionate of cinema, technical issues and I have a deep experience in electronic and hardware field assessment.

My main goal is that to solve all the technical problems that may occur in a process and realize projects with professionalism and accuracy.

I work with the best audio system for the best professional results:

Neumann microphone and Universal Audio apollo interface on Mac OS system are my favorite.
